Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11 are drawn to a method for estimating, classified in class 706, subclass 11.
 - II. Claims 12-16 are drawn to a system for achieving goals, classified in class 706, subclass 12.
2. The inventions are distinct, each from the other because:
Each group is directed to separate invention.
3. Inventions group I and group II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions group I has inputs that are values while group II has inputs that are functions.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
